SPONSORSHIP OPPORTUNITIES

AmCham China and WEConnect International in China

The 女 Economy Summit

April 12th, 2017
Renaissance Beijing Capital Hotel, China
About AmCham China

The American Chamber of Commerce in the People’s Republic of China is a non-profit, non-governmental organization whose membership comprises more than 3,800 individuals from over 1,000 companies operating across China. The chamber’s nationwide mission is to help American companies succeed in China through advocacy, information, networking and business support services. AmCham China is the only officially recognized chamber of commerce representing American business in mainland China. With offices in Beijing, Tianjin, Dalian, Shenyang and Wuhan, AmCham China has more than 60 working groups, and holds more than 300 events each year.

About WEConnect International

WEConnect International is a corporate led 501(c)(3) that facilitates inclusive and sustainable economic growth by empowering and connecting women business owners to our corporate members that collectively represent over US$700 billion in annual purchasing power. WEConnect International identifies, educates, registers, and certifies women’s business enterprises that are at least 51% owned, managed, and controlled by one or more women. WEConnect International is active on the ground in some of the most and least developed countries that together represent over 40% of the world’s population.
Why Sponsor?

AmCham China and WEConnect International in China have embarked upon a collaboration to showcase expert perspectives on women’s economic empowerment and the positive impact of women’s leadership in the global economy. The 女 Economy Summit is looking to collaborate with leading women’s organizations to provide a platform for sharing best practices in developing women leadership and networking with likeminded people from the media, non-profit organizations, and top businesses. Input from male advocates will also be invaluable; gender equality is an issue that concerns everyone.

We are working with a variety of international and Chinese organizations for this event, including:

- UN Women
- Lean In China
- Women’s Professional Network
- China Association of Women Entrepreneurs
- Viva

What is The 女 Economy?

Statistics show that when women lead, or are promoted to high positions, business profitably soars. However, only 8% of board members in China are women, despite comprising 50% of entry-level positions. This summit will bring discussions relating to unconscious biases, mentoring, violence against women, and equal opportunity barriers to the fore.

$2,400,000,000,000 – the total value of The 女 Economy

The summit aims to conclude with best frameworks on developing gender-responsive policy and corporate practices that would effectively support women’s leadership and entrepreneurship in the future. Such discussions endeavor to help build a series of tangible best practices that will then be included in AmCham China’s American Business in China White Paper as a part of AmCham China’s business advocacy efforts.

Expected Attendees

1 According to Forbes, from January to November 2016 Chinese consumers spent $4 trillion. Another study from 2016 indicated that, in China, women control 60% of household spending.
The Summit event expects about 150-200 attendees that include:

- Chinese government officials
- Leading corporate executives
- Women entrepreneurs
- Thought leaders from think tanks
- Partner organizations
- Media
